LEADERSHIP MASTERY COACH

ABOUT CONNIE

I'm an award-winning executive leader, with 30+ years of public sector and leadership experience; and founder of the Leadership Mastery Accelerator, a leadership development program of Organization Advisors, Inc. I have a passion and joy for coaching and training leaders to become effective. I've also served as a Women's Ministry Speaker and workshop presenter for churches, non-profits, and faith-based organizations.

CONNIE WILLIAMS

My Story!

“My story is about how I accelerated my career in leadership as a woman of color. It was a journey that included many twists and turns, lots of obstacles—and ultimately, great success. I have accomplished 30+ years of experience in leadership, all the way to becoming an award-winning executive leader. But my journey wasn't always easy. In mid-career, despite my efforts to help my program attain national and local recognition and develop high-performing teams, I found myself stuck in a supervisor's level position for 5 years. I experienced biases that made me feel frustrated, uncertain, and lacking confidence in my career path. My 'Turning Point' came when I decided to focus on becoming better, not bitter. I worked on eliminating my internal barriers and found a mentor who invested time to teach me senior leadership skills. My self-respect and commitment helped me to elevate my mindset, overcome biases, gain confidence, and see new opportunities.”

The Story Continues...

“An opportunity presented itself when an executive leader visited my program. I listened intently to their presentation about their new program and realized that I knew the exact strategies to grow their program and exceed outcomes. I approached them after the event and shared my insights. They listened carefully and thanked me for my valuable advice. Before following up, I received an invitation from their Director offering to have lunch with me. During that lunch meeting, I was offered their Program Administrator position...the same salary level as my manager. This was a huge accomplishment that accelerated my entire career! For the next 14 years until my retirement, I was offered promotions without even having to apply for them. My executive-leader mindset and skills created value for my organization and program to receive national awards and recognition, and I have been honored to help other women along their journey. As a woman of color, we often face additional challenges on the path to leadership. My message to you is that with the right mindset, skills, and support, any obstacle can be overcome. Get ready to accelerate your career with me!”

VALUED RESULTS!

"I started my HER coaching journey August 2021. A manager's position for my current employer was posted. Since I've been working for the agency 8 years, I was out of touch with the interviewing process. I knew I had the skills to do the job but, I lacked confidence in selling myself. I reached out to Ms. Connie and this was the best decision I've ever made. For 2 months I went through a career boot camp. Ms. Connie focused on Biblical principles and always prayed with and for me after our sessions. Our faith is very important to the both of us. During my coaching experience, I was stretched outside of my comfort zone and challenged to think and act like an executive. Ms. Connie gave me assignments to complete and we did mock interviews which helped me with my professional growth. I did not get the manager's position; I got something better. A new position was created, and I interviewed and was selected. I have no doubt that my coaching experience with Ms. Connie prepared me for the interviews and my new position."
